

Immediate Next Steps

1

Create 29 Additional Units of Emergency Family Shelter

Currently, families experiencing homelessness must wait for shelter and often face hard decisions to break up their families or stay in unsafe situations.

2

Implement Housing Focused Case Management

Housing-focused case management quickly engages persons in problem-solving conversations focused on rapid resolution of homelessness.

3

Expand Rehousing Capacity

This would be through Rapid Re-Housing, Permanent Supportive Housing and other permanent housing. The lack of housing opportunities increases unsheltered homelessness and contributes to larger homeless encampments in the Des Moines metro area
